Keeping Your Data Secure

Zoot adheres to rigorous security measures and compliance standards, including PCI DSS and HITRUST certifications. Zoot also undergoes SSAE18 SOC1 Type2 and SOC2 Type2 audits annually. Additionally, Zoot maintains a strong security posture with highly available and redundant processing capabilities

"If we tried to build something internally, our cost probably would have been tenfold if not more... Our ability to implement changes has been night & day better than in some internal legacy systems"

Credit Card Product Manager
Director

Our headquarters contains our main data center housed within a seismic-rated structure and surrounded by a fiber optics loop, safeguarding against critical service disruptions and ensuring 99.9% availability.

Against the backdrop of the mountains of Montana, our location acts as a shield offering insulation against the inherent challenges of densely populated areas and protecting our data from physical and technological threats.
